Farewell to the Odd Bits of Crockery and China

With the large shipments of Crockery that are soon to be coming for our Spring trade, we must prepare a way for their display and there's only one way to do it, get rid of the single pieces and odds and ends that take up lots of room. We have made big reductions on all such things and have a large table loaded with them. Your inspection is solicited.

We know by the number of large Crockery sales we made the past week, both in town and out, that our prices are appreciated and we mean that our prices shall prove to you that we are headquarters for Crockery and China.

ADRIFF ON GANG PLANK.

Terrible Suffering of Party Told by Sole Survivor.

Savannah, Ga., Jan. 18.—Adriff on a gang plank from nine o'clock last Saturday morning until five o'clock Monday afternoon without food or water. Karl Summer, the only known surviving member of a party of thirty people about the three masted schooner, Robert H. Stevenson was picked up by the German steamer Europa, bound from Philadelphia for Savannah Monday afternoon and brought to Savannah yesterday. Besides the ship's crew, there were four women aboard, the wife of the captain, two relatives and a colored servant, all going to Havana on a pleasure trip.

The Stevenson, loaded with coal, sailed from Philadelphia January 5 for Havana. Captain Higbie was in charge with First Mate Lewis.

Summer says the schooner grounded on Diamond Shoals. All save four seamen, himself included, took to the boats, one boat being smashed and the first mate and two men being drowned. This he witnessed. He thinks the others capitulated.

Two of the men who remained with the schooner left on a raft, he left on a gang plank and the fourth remained. Several ships passed Summer at a distance before he was picked up, weak from cold, hunger and thirst.

MAY RECOVER FROM INJURIES.

Bangor, Maine, Jan. 18.—After having been impaled on a bean pole as the result of a coasting accident, John Fowler, aged 14, son of Mr. and Mrs. Daniel Fowler of Greenfield, in the opinion of his doctor may not die. The pole, which was 1 1/2 inches in diameter passed completely through the body just below the ribs and end protruding several inches beyond the back. A doctor sawed off the protruding end and removed the part that remained in the body. It was found that apparently no vital organs had been seriously injured, and the chances were pronounced even that the lad would recover.
